Monthly Indicators

April 2018

Many sellers and builders are in a good position for financial gains, as the economy continues to favor putting existing homes on the market and building new homes for sale. We are finally beginning to see some upward movement in new listings after at least two years of a positive outlook. There may not be massive increases in inventory from week to week, but a longer-term trend toward more new listings would be a good sign. Low inventory should continue to create a competitive situation for buyers, causing price increases over the next several months.

New Listings in the Sioux Falls region decreased 9.3 percent to 575. Pending Sales were up 36.2 percent to 549. Inventory levels fell 23.5 percent to 1,293 units.

Prices continued to gain traction. The Median Sales Price increased 10.5 percent to \$209,900. Days on Market was up 3.3 percent to 93 days. Sellers were encouraged as Months Supply of Homes for Sale was down 27.9 percent to 3.1 months.

This winter and spring exhibited unseasonal weather patterns in much of the country. As the seasons change to something more palatable, wages and consumer spending are both up, on average, which should translate positively for the housing market. Being quick with an offer is still the rule of the day as the number of days a home stays on the market drops lower. If that wasn't enough for buyers to mull over with each potential offer, being aware of pending mortgage rate increases is once again in fashion.

Housing Affordability Index

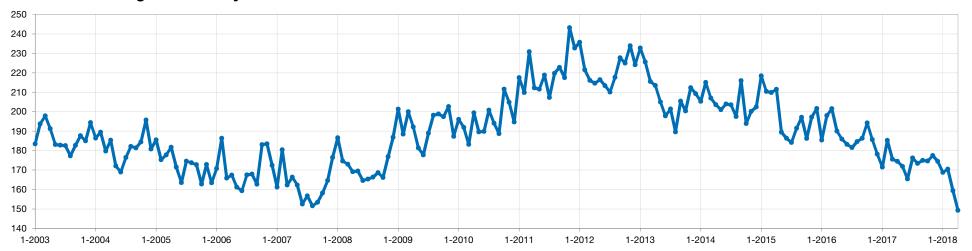

This index measures housing affordability for the region. For example, an index of 120 means the median household income was 120% of what is necessary to qualify for the median-priced home under prevailing interest rates. A higher number means greater affordability.

Month	Prior Year	Current Year	+/-
May 2017	186	172	-7.5%
June 2017	183	165	-9.8%
July 2017	182	176	-3.3%
August 2017	185	173	-6.5%
September 2017	186	175	-5.9%
October 2017	194	175	-9.8%
