

Monthly Indicators

May 2018

Just like last year at this time, prospective home buyers should expect a competitive housing market for the next several months. With payrolls trending upward and unemployment trending downward month after month in an extensive string of positive economic news, demand remains quite strong. Given the fact that gradually rising mortgage rates often infuse urgency to get into a new home before it costs more later, buyers need to remain watchful of new listings and make their offers quickly.

New Listings in the Sioux Falls region increased 2.9 percent to 698. Pending Sales were up 22.6 percent to 603. Inventory levels fell 18.2 percent to 1,435 units.

Prices were even with last year. The Median Sales Price increased 8.0 percent to \$210,000. Days on Market was down 1.1 percent to 87 days. Sellers were encouraged as Months Supply of Homes for Sale was down 22.7 percent to 3.4 months.

Although home sales may actually drop in year-over-year comparisons over the next few months, that has more to do with low inventory than a lack of buyer interest. As lower days on market and higher prices persist year after year, one might rationally expect a change in the outlook for residential real estate, yet the current situation has proven to be remarkably sustainable likely due to stronger fundamentals in home loan approvals than were in place a decade ago.

Housing Affordability Index

This index measures housing affordability for the region. For example, an index of 120 means the median household income was 120% of what is necessary to qualify for the median-priced home under prevailing interest rates. A higher number means greater affordability.
